HAS COME AT LAST.

Threatened Mining Trouble
Has Finally Occurred.

FIERCE FIGHTING RESORTED TO.

Four Strikers Are Lying Dead and Double That Number Are Badly Wounded, Some of Them Mortally—Trouble Out in Illinois—The Trouble Extends Into the Gold Fields—Various Other Labor News.

UNIONTOWN, Pa., May 25.—The long threatened attack by striking miners on the pits of the Washington Coal and Coke company at Stickle Hollow, in the fourth pool district on the Monongahela river, was made yesterday, involving another of the grim tragedies that characterize the irrepressible conflict.

The fight was one of the fiercest in the history of the mining troubles in western Pennsylvania and in the section where it occurred as well as throughout the whole coke region, the situation it has developed is one of the most intense excitement and dread uncertainty. Four strikers are lying dead, and double that number are badly wounded, some of them mortally.

Thomas Kenan of Woods Run is the only American killed in the encounter with the deputies. The other men are Slavs. The wounded men who fell under the first volley from the deputies were taken off the field by the retreating strikers, and even now the actual number of wounded is not definitely known, their friends having the strongest motives for concealing them.

It is perhaps too soon to attempt to apportion the responsibility for the killings. In the mass of confessed and contradictory statements their testimony to show that the strikers, while threatening an attack, had committed no overt act of lawlessness, beyond the possible offense of unlawful assembly. That the deputies fired on them absolutely without provocation that would warrant the use of deadly weapons and that some of the killings were particularly cruel and unjustifiable.

Then there is equally abundant testimony to show that the deputies simply defended themselves and their charge from the rushing assault of an armed and bloodthirsty mob. The strikers furnished all the dead men. Not a deputy was fatally hurt, and only three of them wounded.

The fight occurred at daybreak, in the public roadway leading to the Stickle Hollow plants. Two thousand strikers, after camping near the works all night, came out to intercept the men on their way to work to induce the men to come out and help win the strike. A few of them carried Winchester, while fully 20 others were armed with shotguns, muzzle-loading rifles and revolvers.

Because of their threatening demonstrations, and the fact that they had given notice to the company that they had come to drive off the deputies, if necessary, there were ball cartridges in the Winchester carried by the guard and the entire outfit at the works in general readiness to receive raiders. The deputies had specific orders, and it is admitted that the company had conveyed to them directions to shoot to kill.

Sixty-six of the strikers were placed under arrest and taken back to the company's ground, where they were closely guarded during the remainder of the day. The whole lot of them were later placed in boxcars, which were closely nailed up, and kept there until evening, when they were brought here to the jail in charge of 25 deputies.

The men arrested are nearly all native born citizens and intelligent looking, and several of them are known to be men of influence and good reputation in the fourth pool district. The situation at the mines is alarming, and more serious trouble is expected within the next 24 hours.

The latest reports from there are to the effect that 3,000 strikers from the lower end of the fourth pool were marching on Stickle Hollow, thoroughly armed, for the purpose of storming the works, regardless of consequences. But these reports have not been verified.

None of the dead except Kenan have been identified. It is impossible to learn about the others who are dead. Fear muzzles the survivors and seals the lips of even the children of friends of the men in the fight. They will not even claim their dead, and nobody has come forward to speak for the remains of the poor fellows who are lying where they fell.

John Troy of Fayette City was badly wounded and will die. He is a prominent citizen of that place and was formerly a school director.

STRIKERS ARE DESTRUCTIVE.
They Fill Up a Mine With Debris—Armed Deputies After Them.

CENTRALIA, Ills., May 25.—About 500 miners from Duquoin and the St. Johns mine arrived in this city yesterday on an Illinois Central freight train and proceeded to the Big Four mine, operated by Pottinger & Davis, in the northern limits of the city. They demolished considerable of the machinery and filled the shaft with about 15 feet of debris, dump carts and other loose material. Every glass and sash in the buildings were smashed. The total damage to the property is estimated at \$2,000.

The Big Four mines have for the past three days been running with about 30 men, and Tuesday they refused to come out at the request of the local committee. The Duquoin strikers boarded a freight train in this city and forced the engineer, Charles Stewart, to haul them here. Sheriff Helms was notified at Salem that the men were coming and a special engine sent to convey him here, but he did not arrive in time to prevent the destruction of property.

After the strikers had completed their work of destruction they left the city and two miles north separated in two gangs, one party going to Sandoval and the other to Odin. The mines are running at Odin, and it was expected that destruction of property would follow their arrival there. Sheriff Helms swore in 125 deputies and after arming them chartered a train and started to Sandoval, where the west gang was overhauled, already headed for Odin. The train was quickly transferred to the Baltimore and Ohio track and the deputies reached Odin a few minutes in advance of the two branches of the mob.

The strikers were surrounded and a few shots fired, but no harm done. A portion of the mob surrendered and the remainder fled. About 80 men were arrested and brought here. Later in the evening 20 more were brought in and all are now locked in the city hall. Threats have been made that the prisoners will be released and the city authorities have sworn in a large force of extra police to assist the deputies and guard the peace of the city.

TROOPS ORDERED OUT.

Illinois Militia Will Aid the Authorities in Preserving Order.

SPRINGFIELD, Ills., May 25.—Governor Altgeld was in telegraphic communication all evening with the county and municipal officials at Centralia, La Salle and other points where the strikers were rioting during the day, and shortly after midnight decided that troops must be called out.

Sheriff Taylor of La Salle county wired at 11 o'clock the situation was very serious; that his force of deputies was unable to cope with the rioters and that a mob surrounded the hotel in which he was lying wounded.

Sheriff Helms of Centralia sent a report similar in character.

Orders were then telegraphed for five companies of the Fourth infantry to report at Centralia and four companies of the Seventh to report at La Salle at once.

Adjutant General Orendorff will go to La Salle and Assistant Adjutant General Boyle to Centralia.

Sheriff Taylor of La Salle, in his report of the trouble said, while protecting the property of the La Salle company and Carbon Coal company with a large force of deputies, they had been attacked by several hundred striking miners with stones, revolvers and other weapons, shooting three deputies, severely injuring them and painfully several others, including the sheriff.

Taylor said he was unable to preserve peace and quell the mob and imminent danger exists of great loss of life and destruction of property, if immediate action is not taken by the governor. He appealed to the governor for military aid, adding that there are 2,000 to 3,000 miners at Spring Valley, Ladd and Seatonville, who are likely to come to La Salle at any time and destroy property. Sheriff Taylor wires later: "The strikers are running riot. Forward troops at once."

STRIKE SPREADING.

Men Who Have Been at Work Induced to Quit by the Strikers.

POMEROY, O., May 25.—The great coal miners' strike here is closing down tighter than ever. Four hundred miners visited the various mines in this city yesterday, which supplies the salt furnaces and other local industries with fuel, and induced all the men to join the river strikers.

This will close down all the furnaces and iron mills at once. They now intend to cross the river and try moral suasion on Senator Camden's miners in an effort to shut off the supply of coal being shipped to Pennsylvania over the Ohio River road. No trouble is anticipated. The operators in this district are ready to pay the price demanded, but the miners refuse to accept until a general settlement is effected.

LIBERATED FROM JAIL.

Polish Strikers Resort to Rioting and Defy the Authorities.

SPRING VALLEY, Ills., May 25.—A Polish striker was arrested and locked up yesterday afternoon for rioting. In the evening a mob of infuriated Poles and Lithuanians marched to the jail and liberated the prisoner. Later the police force attempted to arrest the ringleaders of the mob in the Polish district, but they were set upon by another gang armed with knives and missiles. Two officers were wounded.

Mayor Jack has issued orders to the police to not make the arrests until the excitement has died down.

The Knights of Labor have posted a circular urging the strikers to keep within the bounds of the law and allow the fires to be extinguished.

EXPECT A BATTLE.

Eight Hundred Armed Deputies Will Meet Determined Strikers.

DENVER, May 25.—About 125 deputy sheriffs left this city last night for Cripple Creek, and about 100 more will leave to assist the miners in that locality in resuming operations. The strikers expect to give them battle at the Victor mine, about six miles from Cripple Creek, where the turbulent element has thrown up breastworks.

About 60 deputy sheriffs, mounted and each armed with a Winchester rifle and a brace of revolvers, have left Cripple Creek for the Victor mines, ostensibly to protect railroad property, but undoubtedly to participate in the fight. The strikers will be confronted by about 800 deputies all heavily armed.

COAL SHAFT RAIDED.

An Alarming State of Affairs Existing in Illinois.

LA SALLE, Ills., May 25.—A mob of 1,000 coal strikers, none of them English speaking, raided the shaft of the La Salle Coal Carbon Coal company here

yesterday evening, and in a conflict with the sheriff and his deputies five strikers, Sheriff Taylor and Deputy Sheriffs To: 1 Hoolihan and John Dwyer were painfully wounded.

The mob closed in on the officers and a hand-to-hand fight ensued. Three men were arrested, but one of them was released on the men threatening to tear down the jail and burn the city hall. The situation is alarming and the governor has been telegraphed to with a request for state aid.

Some Miners Return to Work.

CHARLESTON, W. Va., May 25.—About 122 of the Acme miners went to work yesterday, after having been out several weeks. It is thought that this will do much toward breaking the backbone of the strike in the Kanawha valley, as it is here the men have expressed the greatest determination to stay out and have had much to do with keeping the strikers at all points from resuming work. All the mines in the Loup creek district are working practically a full force, amounting to about 800 or 900 men.

Will Wait For Peace.

PITTSBURG, May 25.—The news of the riot at the Washington Run mines spread rapidly in this city and excited great interest. The mine owners feared that the labor disturbance would spread and there would be further riots. The committee of 15, which was authorized to select a mine in the Pittsburgh district and import men to start it, has temporarily abandoned that project, and no action whatever is contemplated until the coke region troubles are adjusted.

Willing to Pay Last Year's Scale.

PEORIA, Ills., May 25.—A conference of miners, operators and coalhandlers was held here last night. After some discussion 19 operators signed an agreement to pay last year's scale, which is demanded by the miners. Delegates were selected to attend a meeting at Springfield Monday. They were instructed to use every means to bring about a general settlement.

Out by the Aid of Revolvers.

ASHLAND, Ky., May 25.—The strikers of Cartes county are using revolvers in their intimidation of the coal loading forces of the several mining companies. No coal will be allowed to leave the mines if they can prevent it, which up to date they have succeeded in doing.

Strike Complete.

CENTREVILLE, Ia., May 25.—The strike in Appoquose county is complete, not a mine running. Several attempts to go to work on the part of non-strikers have been set down upon by strikers. No serious trouble has occurred. Distress of the non-workers will develop.

Injunction Against Strikers.

DENVER, May 25.—The Colorado Fuel and Iron company has secured injunctions to prevent the strikers marching from Florence from interfering with their men. The sheriff, with a large force of deputies, will meet the strikers at the county line.

Awaiting the Illinois Meeting.

TERRE HAUTE, Ind., May 25.—The Indiana operators held a meeting in this city yesterday. The report of the delegates to the Cleveland convention was received and accepted. Nothing of importance will be done until after the Illinois meeting.

Miners Resume Work.

PITTSBURG, Kan., May 25.—The Weir company's shaft has accepted 87 1-2 cents in summer and \$1 in winter per ton for screen lump and 53 1-2 and 60 cents for mine run coal, and resumed work.

NO NONUNIONISM HERE.

The Strike Fever Has Extended Even to the Gold Miners.

CRIPPLE CREEK, Colo., May 25.—There is a very ugly feeling among the union miners over the report that the owners will attempt to reopen the gold mine within a few days with nonunion miners, protected by armed deputies.

The mood of the striking miners was indicated when John Thomas and Thomas H. Jones, two miners from the Victor mine, arrived in Altman on their way to Cripple Creek. They were suspected of being nonunion men, and notwithstanding their protests that they were not, they were set upon by the strikers, knocked down and several shots fired at them. Thomas and Jones took refuge in a boardinghouse, which was immediately entered by a dozen union men, who took them out and gave them a fearful beating.

At last Thomas escaped and made his way into town. When he arrived here he was exhausted. He had five bad scalp wounds and a depression of the skull. Jones is missing, and it is feared he is lying in some secluded place dead or seriously wounded.

Found in a Barn.

AKRON, O., May 25.—Dr. Simeon Brach, 45, who had been missing from his home near Ravenna for several weeks, was found dead in an unused barn here Wednesday night. He had suicided with poison.

The President Back in Washington.

WASHINGTON, May 25.—President Cleveland, Secretaries Gresham and Carlisle and Captain Robley D. Evans returned to Washington yesterday from their shooting and fishing trip in North Carolina waters.

Alleged White Copper Acquitted.

HARRISBURG, Ky., May 25.—Finis Bonta, the second of the alleged White Caps, on trial here for killing Josh Mitchell in January, was acquitted yesterday afternoon. The jury was out 20 minutes.

Bad Blaze.

MADISON, Ind., May 25.—Gladden's dry goods store, Storer's shoe store and Mayer's saloon burned in Lexington, Ind. Thursday morning. Loss, \$5,000.

ESCAPED LYNCHING.

A Telegraph Operator Secures an Engine and Fools an Angry Mob.

ASHLAND, Ky., May 25.—At Olive Hill, Ky., last night, a desperate effort was made by a mob of 100 men to lynch Henry Hensley, the night operator of the Chesapeake and Ohio railroad at that point. For several months preceding the recent killing of Calvin Scott by his son, James Hensley had been clandestinely meeting Scott's pretty 19-year-old daughter, and a quarrel over this led to his death. After confession by the son, public indignation was strong against Hensley and lynching was openly talked of.

The mob formed about 9 o'clock, while Hensley was on duty. He telegraphed the state of affairs to the chief dispatcher and left the office, escaping by a rear door. Under cover of darkness he made his way to an engine in the yards and escaped.

The mob became enraged at losing its game, and ransacked the depot and did considerable damage.

Young Scott, the murderer, was removed to Grayson yesterday for safe-keeping.

BANK ROBBERS SURROUNDED.

The Bandits Not Yet Captured but May Soon Be in Custody.

LONGVIEW, Tex., May 25.—News from the posse in pursuit of the desperadoes who robbed the First National bank Wednesday and killed two men, was sought after eagerly by throngs in the streets. The posse that has been pursuing the robbers sent word from Avenger, a station on the east line, that they had them surrounded.

The funeral of George Buckingham, who was killed by the robbers, took place yesterday. McQueen, the badly wounded man, is resting easily, but with no chance for the better. City Marshal Muckleroy is getting along all right, and will recover if no complications set in. Charles Leonard had his leg amputated below the knee and is doing well. The other slightly wounded are improving.

HEADSTONES FOR HEROES.

Forty Unclaimed Ones Discovered in a Cellar.

NEW YORK, May 25.—Charles G. Reichert, the chairman of the relief committee of the G. A. R., which has headquarters in the basement of the city hall, while prowling through the cellar discovered 40 headstones ranged about the wall, most of them framed in a wooden casing, as if for shipment. They are of white marble, and each is inscribed with a soldier's name.

The government furnishes every soldier with a marble headstone when he is dead. The stones are uniform, about 2 feet high and 18 inches wide, with the simple inscription of name and command. On one of the tombstones was found the inscription, "August Walters, Twenty-eighth Ohio."

Mr. Reichert is particularly solicitous to find the resting places of the men, to whom these stones belong, so that heroes may be properly honored.

Opening Up Indian Reservations.

WASHINGTON, May 25.—The senate committee on Indian affairs has authorized a favorable report on the bill providing for the opening of the Uintah and Uncompagh Indian reservations in Utah. The bill provides for the allotment of a portion of the land of the reservation in the severalty to the Indians and the opening of that remaining to settlement. The committee also ordered favorably reported an amendment to the Indian appropriation bill introduced by Senator Pettigrew for the ratification of the treaty with the Yankton Sioux Indians.

Sugar Safely Barreled.

WASHINGTON, May 25.—Representative Warner of New York, who secured the free sugar amendment to the Wilson bill, says it will be futile to attempt to strengthen the Sherman anti-trust law in order to make it reach the sugar trust and like organizations. Attorney General Olney's recent report to the senate stated that he had prosecuted the sugar trust, but that the case had been decided against the government in the various lower courts, and was now pending in the United States supreme court.

Damage Suits Compromised.

RICHMOND, Ind., May 25.—Damage suits against the Pennsylvania aggregating \$10,000, brought by John Ganz, for the killing of his wife and two children, have been compromised. For the loss sustained by the death of his children up to the time of their coming of age he was awarded \$2,000 by the court, and for the other claims he accepted \$1,000, both amounts being paid in full.

Assaulted by Armenians.

CONSTANTINOPLE, May 25.—Simon Bey Maksud, one of the leading Armenian notabilities of this city, is lying at the point of death as the result of an attack made upon him by three Armenians, armed with revolvers and daggers. Two of the assailants have been arrested and declare that Maksud had betrayed the Armenian cause by treacherous communications with the porte.

Aeronaut Injured.

MUNCIE, Ind., May 25.—Professor John E. Baldwin, the well known balloonist of Dalton, Ind., was very seriously injured at Muncie Wednesday. Previous to making an ascension he was giving a trapeze performance on a rope, when it broke, and he fell 20 feet, lighting on his back.

W. C. T. U. at Portsmouth.

PORTSMOUTH, O., May 25.—The fifth annual convention of the W. C. T. U. convened in our city Thursday. The district embraces Scioto, Lawrence, Adams and Pike counties. Mrs. H. E. Hammond of Cleveland will address the convention.

MR. HOLMAN'S SCHEME

It Is a Complete Failure in the House of Congress.

APPROPRIATIONS FOR INDIANS.

His Endeavor to Save One Million Dollars Not Approved Of—Instead of That Sum He Is Satisfied With One-Fourth of the Amount of the Reduction—Some of His Reforms.

WASHINGTON, May 25.—The effort of Congressman Holman, chairman of the committee on Indian affairs of the house, to reduce the annual appropriation for the Indian service \$1,000,000 has failed. Mr. Holman now asserts that he will be able to reduce the amount only \$250,000. Mr. Holman says the Indian affairs committee is made up largely of western members, who have so many local interests involved in the Indian appropriation bill that they decline to keep pace with his economical tendencies.

Among the "reforms" which Mr. Holman points out in the new Indian appropriation bill is a provision that the expenditure per capita annually for the education of Indian children shall not exceed \$167. Heretofore it has ranged anywhere from \$150 to \$300 annually. Another provision is that an Indian agent's salary shall not exceed \$1,800 a year. Formerly it has ranged as high as \$2,200, and there is still another provision that the salary of a superintendent of Indian schools shall not exceed \$1,500 a year, while heretofore in some cases it has reached \$2,000.

There is an appropriation in the bill of \$5,000 for the commission to appraise the value of improvements made by the intruders in the Cherokee nation. This is the commission of which P. H. Pernot of Indianapolis is a member, and which suspended operations several months ago for want of funds. A bill was introduced about two months ago appropriating \$12,000 to complete the work of this commission, but the house for some reason did not take prompt action. The Indian committee thought \$5,000 was sufficient to enable the appraisers to finish their mission, and that amount fixed by the regular appropriation bill bids fair to pass the house.

The new bill fixes the salary of the general superintendent of Indian schools at \$2,500. This is a reduction from the previous salary, and is in the nature of a compromise. Mr. Holman sought to abolish the office of the superintendent of Indian schools, which is held by Professor Hallman of Laporte, but there were so many protests from philanthropic societies interested in promoting education and civilization of the Indian that Mr. Holman retreated under fire.

Failing to abolish Professor Hallman's office, Mr. Holman effected a saving in another direction by reducing the number of supervisors of Indian schools from four to two. This may indirectly affect another Indiana man—William M. Moss of Bloomfield, editor of the Bloomfield Democrat, who is in the field as a supervisor of Indian schools, drawing a salary of \$1,500 a year and his expenses. If the reduction is made, two of the supervisors will be called in, and there is an intimation that as Indiana has the superintendent of Indian schools, it is not likely that she will be given one of the two supervisors also.

An effort was also made to make full settlement with the Pottawatomies of the amount that will be due them under a perpetual annuity (which grew out of the treaty made with the federal government, by which the Indians surrendered their lands in the northwest territory), and thus stop the annual payments. Serious objections were made to this proposition and it was abandoned. The Pottawatomie Indians, who are the beneficiaries of this annuity, reside in northern Indiana and southern Michigan.

RANDALL'S CONFIDENCE.

Every Day's March Is a Petition to Congress, He Says.

LIMA, O., May 25.—Randall's army reached here from Delphos, a march of 14 miles, at 4 o'clock yesterday afternoon, with the general riding his fiery charger in the lead. They marched down Main street to the Finch block, where they spent the night. Admission to the fair grounds was denied them. There are 200 men in the company, three recruits having been received at Delphos. They are being cared for by the local Populists.

Mr. Randall expects to reach Washington by July 15, and is confident in the ultimate triumph of his cause. "Every day's march," he says, "is equal to a petition to congress."

Sullivan's Brigade.

FREMONT, O., May 25.—Sullivan's brigade of General Randall's army, or Chicago division, numbering 85 strong, in command of Captain C. B. Ferguson, are in camp here. They leave to-morrow morning for Bellevue, where Farmer Kline will entertain them.

Kelly Makes a Move.

QUINCY, Ills., May 25.—Kelly's commonwealth army left for Hannibal at 4 o'clock yesterday afternoon. The boats were lashed together in groups of four, and the army will camp on Pearl island. Provisions are awaiting them there.

"Our Jewels."

COLUMBUS, O., May 25.—The contract for adding the Hayes statue to the "Our Jewels" group and erecting the memorial in the state capital grounds has been awarded to Levi T. Schofield of Cleveland for \$5,000.

Assets in Excess of Liabilities.

PORTLAND, Or., May 25.—The J. K. Gill company, wholesale dealers in books and stationery, assigned yesterday. Liabilities \$130,000. Assets believed to be in excess of liabilities.

LAST week there were only 220 failures in this country, compared with 247 for corresponding period in 1893.
 FLEMING News: "It is said that Morg has chartered trains and will give a 'free blow' to all who wish to attend the Augusta convention." This can hardly be true, as the Judge informed us a few years ago that he was "out of politics."
 Hon. P. J. SORG, whom the Democrats of the Third Ohio district recently sent to Congress, will hereafter give the employees of his big tobacco factory at Middletown an extra half holiday every Saturday, with full pay. It is such treatment as this that made him the most popular man in his district.
 ALABAMA Democrats, in State convention this week, heartily endorsed President Cleveland and his administration of the affairs of Government. Senator Morgan was glad to pull through the convention with a half way endorsement. Another knock-out for the anti-administrationists. They will soon find out just "where they are at."
 WHAT right has a member of the State Democratic Executive Committee to fill vacancies in any county committee? If any such rule is in existence it should be abolished. The Democrats of the respective precincts are the ones to select their committeeman. That has been the custom for years, and there is no good reason at all for changing it.
 THAT amusing publication, the American Economist, goes to great pains, says the Courier-Journal, to explain that the growth of our industries under protection has been perfectly natural, and not artificial. If artificial methods have had nothing to do with it, then the removal of artificial appliances like the McKinley tariff would have no effect. If the growth of an industry has been perfectly natural, it will be independent of such extraneous and unnatural aid.
 But when the Economist, as the mouth-piece of the American Protective Tariff League, goes to talking about labor in the United States having received its share of its own product under this "natural" system, the most it can say is that "our laborers have approximately received their natural right—the product of their toil." It appears further on that what is meant by this "approximation" to the laborer's natural right is a "comfortable subsistence." The surplus is not his. He gets enough to keep him alive, provided the company that employs him does not crowd him out by cheaper foreign labor, or is not paid to close its doors for the purpose of restricting the over-production caused by the artificial stimulant of protection. And this is the best that this most extreme advocate of protection can claim as to its benefits to the workmen—it gives him "approximately" his share, the protected employer, of course, determining the share.
 And even this claim, adds the Courier-Journal, is at variance with the facts. The laborer in protected industries does not often get even approximately his share of what is filched from the people in his name, and whenever he does he receives it, not as a conceded right, but because he happens to be in a position to exact it.
 Guaranteed Cure.
 We authorize our advertised druggist to sell Dr. King's New Discovery for consumption, coughs and colds, upon this condition. If you are afflicted with a cough, cold or any lung, throat or chest trouble, and will use this remedy as directed, giving it a fair trial, and experience no benefit, you may return the bottle and have your money refunded. We could not make this offer did we not know that Dr. King's New Discovery could be relied on. It never disappoints. Trial bottles free at J. J. Wood's drug store. Large size 50c. and \$1.

"NEARING THE END." The Democratic Party and the American People in Sight of the Promised Land.

Gorman, Maryland's Eloquent Senator, Talks on the Tariff and Captivates All His Hearers.
 The congratulations and compliments showered upon Senator Gorman at the close of his tariff speech Wednesday were not confined to his Democratic colleagues. It was a great speech and captivated all who heard it. The distinguished and eloquent Senator opened in a prophetic strain, saying:
 Mr. President: We are nearing the end. After thirty years of political progress, of positive growth, of constant development and of universal enlightenment, the Democratic party and the American people are within sight of the promised land. Emancipation is at hand—emancipation from partisan oppression, from the greed of classes, from extortion, from restrictions upon individual liberty, from jingoism, from all those evils, in brief, which the Democratic party inherited as a hateful legacy from three decades of Republican maladministration.
 He then touched upon the difficulties which had confronted the Democratic party on its return to power, after thirty years of opposition, and the vehemence of the demands made upon them.
 "We were not only urged," he said, "but ordered peremptorily to reform the tariff at once. Why wait? Vote first. Talk afterward."
 He asserted that time, and plenty of it, had always been considered absolutely essential in reforming tariffs. The Mills bill did not pass the House till mid-summer. The McKinley bill did not receive the signature of President Harrison till the last day of September:
 Speaking of the House bill, he said:
 In obedience to the obvious wish of the country, the House of Representatives passed a tariff bill early in the session. Comparatively little time was given to consideration of the various schedules, and many changes in the bill, as reported, were made in committee of the whole, without due regard for their ultimate effect or for existing industrial conditions. The result was necessarily an imperfect measure, which not only failed to meet the requirements of the Treasury, but actually increased the deficit created by Republican prohibitive duties. There was no expectation that this bill would become a law without change.
 Then he added with significant emphasis:
 Our friends on the other side seem very anxious to learn upon what theory this bill was constructed. I will tell them. It was constructed upon the Democratic theory of a tariff for revenue with such incidental protection as can be given consistently to the industries of the country. It follows strictly the course marked out by President Cleveland in his letter of acceptance.
 It is not a free trade measure, but it is a longer step for freer trade than either the Mills bill or the tariff of 1883. It is not a protection act for the sake of protection, but it does discriminate between the raw materials and manufactured articles to the full extent of the difference between European and American wages. It is not a deficit-creating bill, such as either the present law has proved to be or as the bill which passed the House was certain to be, if enacted.
 It is Democratic because it reduces taxation to the actual requirements of the Government. It is just because it eliminates the favoritism of the present law, and lessens the burdens of the great majority of the people. It is wise, because it makes possible the quick revival of business activity so sadly needed and universally desired. It is business-like, because it provides sufficient revenue to meet necessary expenditures without further issue of bonds. It is patriotic, because whatever of discrimination it contains is in favor of American citizens. It is prudent, because it does not attempt to ignore facts in bearing out a theory.
 Turning to the alleged influence of the sugar trust and like organizations in shaping the Senate bill, he said:
 The assertion that any trust or trusts have dictated any part of any schedule of this bill, I pronounce unqualifiedly false. They have received the same attention, although not as much consideration, as individuals engaged in the business of manufacture—no more and no less. We felt the necessity of dealing all such combinations a death blow, but we found them so hedged about by the bounty and other devices of Republican statesmen that it was possible only to curtail their privileges to the farthest limit consistent with the rights of others intimately concerned, but not responsible.
 This we have done. We have reduced the duty on lead 50 per cent., on steel rails 56 per cent., and on refined sugar 75 per cent. more than on the product of any other trust, or on any other article. We have gone quite as far as we can go, in a word, without seriously impairing the Government's sources of necessary revenue. Much has been said in criticism of our action in imposing any duty whatever on sugar.
 But let me ask any fair-minded man if it would be just to the people of Louisiana to take from them every shred of the advantage foisted upon them against their will by the Republican party for a political purpose, to deprive them in fact of their very means of livelihood and give them nothing in return?
 But if there were no such industry or even State in existence the wonderful development of beet-sugar production in Nebraska and California fully warrants the incidental protection which will be afforded by this revenue duty. That, sir, is the reason why we have placed an ad valorem duty of 40 per cent. upon all sugars, and I am not and will not believe that the generous minded people of the East who themselves have profited from such measures so long and so greatly, will disapprove our action.
 On the income tax question Mr. Gorman said:
 I could not, I say frankly, vote conscientiously or consistently with my judgement and convictions to make this method of taxation a part of our settled policy. But much as I deplore the fastening of an income tax in any form upon our tariff bill, I can not, as a Democrat bound in honor to let no ordinary prejudice or difference in opinion prevent the passage of a tariff measure, refuse to vote for this amendment,

The Old Friend
 And the best friend that never fails you is Simmons Liver Regulator, (the Red Z)—that's what you hear at the mention of this excellent Liver medicine, and people should not be persuaded that anything else will do.
 It is the King of Liver Medicines; is better than quinine, and takes the place of Quinine and Calomel. It acts directly on the Liver, Kidney and Bowels and gives new life to the whole system. This is the medicine you want. Sold by all Druggists in Liquid, or in Powder to be taken dry or made into a tea.
 EVERY PACKAGE Has the Z Stamp in red on wrapper J. H. ZEILIN & CO., Philadelphia, Pa.
 simply and solely, however, as an emergency tax. The blame for any further delay in the settlement of this question must rest upon the other side of the chamber. We are ready for a final vote to-day—now—at once. Every hour occupied by useless debate from this moment must be charged up to the Republican party. If they are honest in their expression of confidence that the passage of this bill will drive the Democratic party out of power their opportunity is here and now. We are more than willing to let the country judge between the revenue measure which we shall pass and the existing protection law.
 Resuming the prophetic strain in which he began his address, Mr. Gorman said in conclusion:
 There need be no fear of the result. The people will soon understand, if they do not now fully comprehend, the true situation. Patience, forbearance, courage! The shadow is not that of the horizon. Now, of all times, the sun of Democracy is at the meridian. Before the second year of responsibility shall have ended the cloud before it will have rolled away and its radiance will rest upon a land blessed with peace and plenty and upon a people prosperous and happy in the knowledge that after thirty years in the wilderness they have at last come into their own.

COMING VISIT, WEDNESDAY, JUNE 6th.
 One Day, Till 3:30 p. m.

DR. APPLEMAN is a graduate of Bellevue Hospital Medical College, New York City, and has had seven years experience in the great hospitals of that city. His wonderful work—

HUNDREDS of CURES,

have caused the old foggy doctors of the State so much uneasiness that for the past two years they have been doing all in their power to stop his practice.
 Shall the sick remain sick, and the suffering continue to suffer? Yes, says the general practitioner, rather than let Dr. Appleman help you. NO, says Dr. Appleman,

Come to Me and Be Cured if it is in My Power to do it.

John Whittington, 216 N. Walnut street, Maysville, says: "I have tried seven doctors and none have done me any good. Have not worked for six months. I am now able to work after one month of your treatment."
 The doctors are astonished, and ask, "What is he doing?" Is that enough?
 H. H. King, Helena, M. D. Cord, Flemingsburg, Chas. Asbury, Maysville, L. L. Wells, Helena, and fifty others can and do speak of the good Dr. Appleman is doing. Consult this eminent Specialist on his coming visit. He treats

ALL TORN UP.

Are Political, Confederate and Social Circles at Lexington Over the Congressional Race.

LEXINGTON, May 23.—Political, Confederate and social circles are torn up worse than they have been since the beginning of the Congressional campaign over the rumor which gained circulation last night and was telegraphed abroad that the Woman's Auxiliary of the Confederate Veterans' Association had a stormy time at the meeting yesterday afternoon to arrange for decorating Confederate graves next Saturday. The President of the auxiliary, who is herself opposed to Breckinridge's candidacy, says that the Congressional race was not mentioned, and that Confederate graves will be decorated Saturday without regard to Breckinridge's standing as a veteran, as the association is opposed to taking up his case in any shape or form. She denies that any threat was made to refuse to decorate Confederate graves unless Breckinridge is expelled from the order.

Mrs. A. M. Harrison, Secretary, and her sister-in-law, Miss Mary Harrison, Vice President of the auxiliary, resigned their offices to-day. They are severe in their condemnation of Breckinridge, and while they give no open reason for resigning, they say plainly it ought not to be difficult to infer why they quit the organization.

NEWCASTLE, May 23.—Colonel Breckinridge scored a victory here to-day. Breckinridge and Owens are fighting over the manner of selecting delegates to the nominating convention. This question is decided by the Congressional committee, which is composed of representatives of the nine counties in the district. Colonel Breckinridge has all along had a majority of one in the Congressional committee conceded to him. Last Monday the Owens people learned that three members of the Fayette County committee were candidates for Magistrate. This they contended made the committee ineligible to serve as such, and their removal was demanded of Chairman Carroll, of this place.

In case of their removal Owens would have had a majority in the Fayette County committee, as the appointing power is an avowed Owens man. The member of the Congressional committee from Fayette County would thus have been an Owens man and the Congressional committee would have stood, Owens 5, Breckinridge 4. Big delegations argued pro and con before Chairman Carroll this afternoon, and he gave his decision to-night. He held that the three committeemen can not now be removed, as they were candidates before the primary elections which elected them and as no objection was then raised to their serving on the ticket.

The above are specials to the Cincinnati Enquirer, and give late developments in the Breckinridge-Owens fight.

Funeral Notice.

The remains of the late Howell Barkley will reach Maysville this evening, and the funeral will occur to-morrow afternoon at 2 o'clock at the family residence on Third street. The services will be conducted by Rev. D. D. Chapin, assisted by Rev. E. B. Cake. Interment in the Maysville Cemetery.

Deceased was conscious up to the last and left instructions as to his funeral and burial.

MR. GEO. W. HOLIDAY died at his home in the Fifth ward this morning at 5 o'clock, after a lingering illness, of consumption. He had been confined to his room since last November. Deceased was past fifty years of age. His wife and four children survive—three sons and one daughter. The funeral arrangements have not been announced.

THE result of advertising and doing just what you promise to do when you do advertise has been demonstrated this week. Since Hechinger & Co. began their cut sale and thoroughly advertised it, their store does not indicate hard times. There is a constant stream of customers that are taking advantage of this, the greatest cut-price sale the house has ever had.

THE Court of Appeals has reversed the case of Patrick McDonald vs. the Auditor, involving the right of one branch of the Legislature to pass a resolution making appropriations to pay contingent expenses. The lower court held that McDonald could not recover the \$1,100 appropriated, for the reason that the resolution should have passed both Houses, but this decision is reversed. McDonald was employed by the State Senate during the long session as copyist. The McDonald decision also settles the same point in regard to \$1,700 allowed to Harry Glen, Clerk of the Senate, a like amount to Green Keller, and other sums to other individuals, all of which will have to be paid under this decision. Governor Brown vetoed these last claims, they having been contained in a general appropriation bill passed by the two Houses.

HAWAII RESOLUTION.

One of Them Comes Up in the United States Senate.

NO FORMAL ACTION TAKEN.

Tariff Bill Taken Up and Several Rates in the Metal Schedule Adopted—After a Long Discussion the House Passes the Legislative Appropriation Bill—Doings of Both the Senate and House.

WASHINGTON, May 25.—At the opening of the session of the senate yesterday Mr. Kyle urged the passage of his resolution, declaring that it was not the purpose of the United States to use force to restore Liliuokalani as queen of the Hawaiian Islands, and that any foreign interference with those islands would be regarded as an act of hostility to the United States.

Mr. Daniel (Dem., Va.) objected to action on the resolution until the resolution on the same subject reported by the foreign affairs committee had first been acted upon.

Mr. Frye (Rep., Me.) advocated the passage of this or a similar resolution, saying that he had information from two responsible persons to the effect that the moment the senate acted the queen would resign all pretence to the throne and accept a money compensation therefor. This being the condition on the islands, in the name of humanity he appealed to the senate to pass this or similar resolutions.

At this point the hour of 10:30 arrived. The resolution went over, and the tariff bill was taken up.

Mr. Hale (Rep., Me.) led off with a sarcastic comment on Mr. Gorman's speech of Wednesday.

The Aldrich amendment to increase the duty on tinplate to 1 1/2 cents per pound was laid on the table, 36 to 26. The Jones tinplate amendment was then adopted, fixing the duty at 1 1/5 cents. As was also the Jones amendment grading the duty on steel ingots, blooms, etc., according to size, value, etc.

The surprise of the day was the acceptance by the finance committee of an amendment offered by Mr. Allen, the Nebraska Populist, to place barbed wire on the free list. Several Republicans opposed it, but did not carry their opposition to the extent of demanding a record making vote of it.

An intimation from Mr. Hoar, that free barbed wire was to be the price of Mr. Allen's vote for the tariff bill, was indignantly denied.

Mr. Powers' amendment, to include other classes of fence wire, was defeated.

The following rates were adopted: Anchors, 1 2-10 cents per pound; axes, 1 1-2 cents; anvils, 1 3-4 cents; blacksmiths' tools, 1 1-2 cents; boiler tubes, 1 3-4 cents; bolts, 1 1-2 cents; cast iron pipe, 6-10 cent; cast iron vessels, stove plates, etc., 8-10 cent; malleable castings, 9-10 cent; cast hollowware, 2 cents; chains, 30 per cent; cutlery, graded according to value and averaging about 25 per cent; shotguns and rifles, 30 per cent; At 6 o'clock the senate adjourned.

In the House.

WASHINGTON, May 25.—After clearing the table of some routine business, at 12:30 o'clock, the house went into committee of the whole to consider the legislative appropriation bill, and Mr. Richardson was called to the chair.

The Republicans were unsuccessful in their efforts to amend the pension paragraph so as to strike out the \$300,000 appropriation for special investigation of alleged frauds.

Mr. Alderson (Dem., W. Va.) tried to have struck out the provision for contingent expenses of the civil service commission, but was voted down.

Mr. Stone (Dem., Ky.) offered an amendment striking out the provision for assistant attorneys to defend the government against war claims, and it was defeated.

At 10 minutes to 4 the committee of the whole completed the consideration of the bill, and it was reported to the house. Separate votes were demanded on Mr. Hayes (Dem., O.) declaring the laws repealed authorizing the docking of members' salaries for absence and on the amendment striking out the appropriations for the civil service.

The Hayes anti-docking amendment was defeated—yeas 104, nays 127.

The amendment of Mr. Enloe (Dem., Tenn.) striking out the appropriation for the civil service commission was lost—80 yeas to 155 nays—and Republican applause.

The legislative bill was then passed. The house bill to incorporate the supreme lodge of Knights of Pythias, was passed.

A resolution was adopted setting aside Saturday, June 22, for eulogies on the late Representative Hook of Ohio.

The house then, at a few minutes past 5 o'clock, adjourned.

TAR AND FEATHERS.

A Coat Threatened to a Rector in Houston, Texas.

NORWALK, O., May 25.—Word has come to Rev. C. S. Aves, rector of St. Paul's Episcopal church, this city, that his brother, Rev. Henry D. Aves, rector of Christ church at Houston, was threatened with tar and feathers, as was also Bishop Kimbrough, for inviting Rev. Mr. Thompson, a colored rector, to participate in the church services last Sunday.

The bishop increased the anger of the church members by inviting Mr. Thompson to a parish dinner. The bishop and Mr. Aves are advised to leave Texas in order to preserve peace in the church and community. Mr. Aves went to Houston from Cleveland, where he was rector of St. John's church.

California Populists.

SACRAMENTO, May 25.—The Populist state convention finished its nominations, making the complete list as follows: Governor, J. V. Webster; lieutenant governor, A. G. Gregg; secretary of state, M. McGlynn; comptroller, John S. Dore; treasurer, F. Barton; attorney general, Louis Luckel; superintendent of public instruction, N. A. Richardson; surveyor general, F. A. Bassett; state printer, Elgin C. Hurlbut.

STEAMBOATING IN THE '50's

[Anonymous.]

With rosin, lard, tar, coal and wood
The Buckeye's time is very good,
But faster will she have to kite
To catch the Swann or David White.

The Keystone State although a tub
Yet lives upon the best of grub;
We know not how she makes it pay
She is so long upon the way.

The Messenger, she fires up hard,
She dips her wood in barrels of lard,
But with this dangerous head of steam
The White does pass her 'gainst the stream.

The Chrystal Palace's time will do,
If in no hurry to get through,
But if you cannot spare a week
The Union line you'd better seek.

The Brilliant in her palmy days,
Could not call forth fast traveling praise,
And since by us she is opposed
The Brilliant's course will soon be closed.

The Pittsburgh makes a right good run,
Yet we will bet our two to one,
With sixty tons stowed in our keel
The Swann can beat her on one wheel.

The Allegheny with mountain light,
The Swann leaves far behind in flight,
And like the living bird upon
The water swiftly glides the Swann.

The last few days, light has broke,
Upon Pittsburgh, long wrapt in smoke,
Since reason's light began to dawn
She fears the White and Thomas Swann.

The Pittsburgh steamers cannot shine
With our Union Packet Line;
Fall City, Baltimore, with the Swann,
Have made the Union quite the ton.

The Adams is a faultless craft,
In speed, in comfort and in draft,
She is an ornament to shine
A meteor in the Union line.

Virginia comes with Captain Wells,
Not to be swamped by Pittsburgh swells;
Our rival neighbor must concede
Her model promises very great speed.

The Northeastern Kentucky Medical Association.

About forty physicians attended the meeting of the Northeastern Kentucky Medical Association at Blue Lick Springs Thursday, and a pleasant and profitable day was spent. The election of officers resulted as follows:

President—Dr. J. W. Kinkaid, of Catlettsburg.
Vice President—Dr. McKeen, of Carlisle.
Treasurer—Dr. C. W. Aitkin, of Flemingsburg.
Secretary—Dr. G. M. Phillips, of Maysville.
Assistant Secretary—Dr. W. S. Yazell, of Maysville.

The next meeting of the association will be held at Ashland, in October.

Drs. Phillips, Pangburn, Yazell and O'Brien were the only Maysville physicians in attendance at yesterday's meeting.

A Million Friends.

A friend in need is a friend indeed, and not less than one million people have found just such a friend in Dr. King's New Discovery for consumption, coughs and colds. If you have never used this great cough medicine, one trial will convince you that it has great curative powers in all diseases of the throat, chest and lungs. Each bottle is guaranteed to do all that is claimed or money will be refunded. Trial bottles free at J. J. Wood's drug store. Large bottles 50c. and \$1.

To-NIGHT—Pearl Melville Company in "Ten Nights in a Bar Room."

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.
